(CIS F) qualification (ISO  
17024-certificated).

## COURSE HIGHLIGHTS

Developed by ISO 27001 experts Alan Calder and Steve Watkins, this one-day classroom course explains how to make the most of the ISO 27001 information security management standard and provides a complete introduction to the key elements required to achieve compliance with it.

Take the first steps towards building a career in ISO 27001. Learn from the experts about ISO 27001 best practice and find out how to achieve compliance with the Standard.

The course provides a complete introduction to management standards and how ISO 27001 works. It combines formal training, practical exercises and relevant case studies.

### WHAT WILL YOU LEARN?

An overview of available standards and management system documentation / The benefits of information security management system (ISMS) certification / An overview of ISO 27001 and its application / Key elements of ISMS implementation project planning / The core elements of the ISMS / The key steps of an ISO 27001 risk assessment / An overview of the ISO 27001 Annex A controls

### CLASSROOM COURSE

Personal interaction with an experienced ISO 27001 practitioner and consultant.

### WHO SHOULD ATTEND THIS COURSE?

This course is for Executive Management, Head of Legal, Chief Compliance Officers, Chief Risk Officers, Cyber Security Regulators, Operational Risk Managers, Compliance Officers, Internal Auditors and ISO27001 Project Managers.

This course is also for those who wish to build a career in information security management internationally.

### ADDITIONAL INFORMATION

The course includes:

- Comprehensive documentation (digital copy provided as a PDF file);
- The ISO27001 Certified ISMS Foundation (CIS F) online exam; and
- A certificate of attendance.

The course is guaranteed to run and 7 hours of CPD will be gained for members of the Compliance Institute of South Africa (CISA).
